

# NZASE Network of Expertise Webinars

As part of the NZASE Network of Expertise, we have developed a series of webinars to run over terms 3 and 4 during 2020.

These webinars are open to NZASE members and you will need to register. You will be sent a link to the webinar the day before.

The webinars will be recorded, and the recording will be available to you/your school.

In response to feedback from members, the

format and timing of the webinars is as follows:

- 70-80 mins (5-10 min intro; 60 mins "on task"; 5-10 min summary/closing)
- Monday, Tuesday, Wednesday during term time
- selected days during school holidays
- after school; starting 3:30pm

The focus of the webinars is also in response to feedback from members.

## Webinar #1

- ❖ The first webinar will be held on Wednesday 19<sup>th</sup> August at 3:30pm
- ❖ The focus for this webinar is: *Emergency science teaching and learning during COVID-19.*
- ❖ We will hear about the experiences of teachers from a range of schools and you will have time to discuss ideas in smaller breakout groups.

Click below for the registration link for the first four webinars:

[Webinar #1: Emergency science teaching and learning during COVID-19](#)

[Webinar #2: Digital tools for remote teaching](#)

[Webinar #3: Evidence-based teaching in science](#)

[Webinar #4: Developing critical thinking in science](#)

Keep an eye on the [NZASE Networks of Expertise page](#) for registration links for the webinars being held during the school holidays, and term 4.
